Your Health Profile

Why This Form Is Important

As a Creating Wellness Center, we focus on your ability to be healthy. Our goals are to first address the issues that brought you to this office and second, to offer you the opportunity of improved health, wellness and quality of life in the future. On a daily basis we all experience physical, biochemical and psychological/emotional stresses that can accumulate and result in serious loss of health potential. Most times the effects are gradual and may not even be felt until they become serious. Answering the following questions will give us a profile of the specific stresses past and present that you face and allow us to better assess the challenges to your health potential.
